## Objective

Looking for a Web Developer job. And pushing forward the technology of the Web.

## Quotes

To Work:  
 Jacob is a genius! He can shine everywhere. Your team will be green-recycling-battery inside with Jacob inside.

To Life: --Ddavid, Friend  
 Handsom, polite, gentleman, talented, Jacob is a full package for everyone and everything. May God bless him.

--John, Friend

To myself:  
 Pursuing dream, happiness, success in the best.

## Education

--Jacob Way

### Computer Science & Technology

MIT OCW, UC Berkeley Web Cast, Udacity, Coursera, EDX  
 2006 – present

- Life-time self study believer, growing, evolving, and be successful.

### Micro Electronics

Self-study  
 2004 – 2005

- Self studying micro electronics course of PKU(Peking University)

### Electrical Engineering and Computer Science

East China Institute of Technology  
 1996 – 1999

- Graduate with distinction.
- Member of Ballroom Dance Club, Department Football team and Basketball team.

## Profile

More than 17+ years experience of R&D on web application, embedded system.

Proficiency on HTML5, CSS3, Bootstrap, Javascript, jQuery, AJAX, Backbone, Python, SQL, Django, VIM, Eclipse IDE, Git, Nginx and comprehensive practical libraries.

Think systematically, implement quickly, innovate eagerly, work passionately.

## Experience

### Chief Software Architect Self-Employed 2015 – 2016

- From 0 build the KTV SaaS Cloud Platform, Membership Management Platform, and Market Activity Platform, as Chief Software Architect in Ethank Corp., a startup company.

### Senior Software Engineer ChinaCache 2011-10 – 2014-04

- Full-package Web developer worked in SSR(Scalable Service Routing) Group of CSP(Core System Platform) Department, a core team of ChinaCache global CDN(Content Delivery Network) System. Accomplishing several important projects as the leading developer.
- NOC Visual Web Application, on NOC(Network Operation Center) wildscreen wall, real-time displays the information about servers, edge nodes, network performance of CDN.
- Global Network Alarm Information Delivery Platform, including alarm template, alarm information delivery with sms and email, providing HTTP API for external system.
- CDN Radar System, detecting CC customer service switching information, recording websites cdn provider information by scanning ISP LDNS log, finding cdn information by user-provided hostname.
- Department KPI Index Web app, collecting the performance of the servers & network that engineers maintain, and forming daily, weekly, monthly, annually data charts.
- SIS(SSR Information System), global CDN network web portal, querying server status, network performance, domain channel service quality information.
- Honor:  
The Annual Best Team of Corporation.

### Self-employed 2006 – 2010

- Tried a variety of careers, English-Chinese translator&interpreter, software engineer, embedded system engineer.

### China GRE(Graduate Record Examinations) 2004 – 2005

- Preparing the national GRE test for the Institute of MicroElectronics of PKU(Peking University), reaching the national and PKU engineering score, but failed PKU science score.

### Embedded System Engineer Netac Corp. 2003 – 2004

- Developed USB Flash Disk.

### Hardware Engineer Group Sense Ltd. 1999 – 2003

- Designed Electronic Handhel Dictionary and PDA(Personal Digital Assistant).

## Hobbies&Interests

Language, Reading, Writing, Dancing, Guitar, Football, Basketball
