Objective

Looking for a Web Developer job.
And pushing forward the technology of the Web.

Profile

More than 15+ years experience of R&D on web application, embedded system.

Proficiency on Closure, Less, HTML Structure, CSS, Bootstrap, Javascript,jQuery, AJAX, Python, SQL, Django, VIM, Eclipse IDE, Git, LAMP constructure, and comprehensive practical libraries.

Think systematically, implement quickly, innovate eagerly, work passionately.

Quotes

To Work:
Jacob is a genius! He can shine everywhere. Your team will be green-recycling-battery inside with Jacob inside.

To Life: --Ddavid, Friend
Handsom, polite, gentleman, tanlented, Jacob is a full package for everyone and everything. May God bless him.

     --John, Friend

To myself:
Pursuing dream, happiness, success in the best.

     --Jacob Way

Education

Computer Science & Technology
MIT OCW, UC Berkeley Web Cast, Udacity, Coursera, EDX
2006 – present

- Life-time self study believer, growing, evolving, and be successful.

Micro Electronics
Self-study
2004 – 2005

- Self studying micro electronics course of PKU(Peking University)

Electrical Engineering and Computer Science
East China Institute of Technology
1996 – 1999

- Graduate with distinction.
- Member of Ballroom Dance Club, Department Football team and Basketball team.

Experience

Software   *ChinaCache*   2011-10 – 2014-04

- Full-package Web developer worked in SSR(Scalable Service Routing) Group of CSP(Core System Platform) Department, a core team of ChinaCache global CDN(Content Delivery Network) System. Accomplishing several important projects as the leading developer.

- NOC Visual Web Application, on NOC(Network Operation Center) wildscreen wall, real-time displays the information about servers, edge nodes, network performance of CDN.

- Global Network Alarm Information Delivery Platform, including alarm template, alarm information delivery with sms and email, providing HTTP API for external system.

- CDN Radar System, detecting CC customer service switching information, recording websites cdn provider information by scanning ISP LDNS log, finding cdn information by user-provided hostname.

- Department KPI Index Web app, collecting the performance of the servers & network that engineers maintain, and forming daily, weekly, monthly, annually data charts.

- SIS(SSR Information System), global CDN network web portal, querying server status, network performance, domain channel service quality information.

- Honor:
The Annual Best Team of Corporation.
The department organizer of annual corporation gala.
The organizer of corporation quarter birthday party.

Self-employed   2006 – 2010

- Tried a variety of careers, English-Chinese translator&interpreter, software engineer, embedded system engineer.

China GRE(Graduate Record Examinations)   2004 – 2005

- Preparing the national GRE test for the Institute of MicroElectronics of PKU(Peking University), reaching the national and PKU engineering score, but failed PKU science score.

Embedded System Engineer   *Netac Corp.*   2003 – 2004

- Developed USB Flash Disk.

Hardware Engineer   *Group Sense Ltd.*   1999 – 2003

- Designed Electronic Handhel Dictionary and PDA(Personal Digital Assistant).

Hobbies&Interests

Language, Reading, Writing, Dancing, Guitar, Football, Basketball
